Sprinkler System Test

Insurance Services Office, Inc. is frequently requested by insurance companies and agents to obtain information regarding automatic fire sprinkler systems.

During our survey of the property located at _____ we were unable to secure documentation of automatic fire sprinkler system testing for the following:

Last Known Test Dates

- ___ Main Drain Test* _____ (M/Y) ___ Dry Pipe Valve Trip Test _____ (M/Y)
- ___ Fire Pump Test _____ (M/Y) ___ Internal Piping Exam _____ (M/Y)
- ___ Sprinkler Head Test _____ (M/Y) ___ Gravity Tank Overflow _____ (M/Y)
- ___ Hydrostatic Testing _____ (M/Y) ___ Overage sprinkler heads have not been replaced.
- ___ Sprinkler system design criteria is unknown. Please provide hydraulic calculations and /or sprinkler plans.
- ___ Central Station Certificate for the waterflow/valve supervision devices.

Due to the above conditions, charges will be applied to the overall evaluation of the automatic fire sprinkler system, which may reduce or eliminate credit that would have been considered in determining the insurance premium calculation.

In order to give you as much credit as possible, we need results of the tests as indicated above. These credits may have an impact on your final insurance premium calculation.

*Please complete the information below if you are able to conduct the Main Drain Test.

Date of test: _____ Name of person or firm conducting test _____.

Pressure on gauge before test: _____ PSI.

Pressure with valve fully open: _____ PSI.

Pressure on gauge after test: _____ PSI.

For your convenience, you can either mail or fax updated information to the following address. Upon receipt, our file will be updated and revised loss cost data can be published as warranted. Please include the AFS Order Number (noted below) for our reference to ensure the forwarded information is properly identified.
